To Whom It May Concern

Dear Sir/Madam,

RE: RECOMMENDATION FOR OMANGA NDJEKONDO NATHAN

Kenya Aeronautical College Flying School is an approved ATO number 12 by Kenya Civil Aviation Authority to train Private Pilot License (PPL) and Commercial Pilot License (CPL) both ground and flight. We are approved to train Flight Operation Officers (FOO). Kenya Aeronautical College Flying School has been training pilots since 2015 using C150, C172 for single-engine training and we have PA34 for multi-engine training. Our Main Base is in Wilson Airport Nairobi and our Satellite Base in Malindi Airport.

The above named was one of our students in Flight Operations Officers course. He has successfully completed the full course and examined on the same as per the requirements of Kenya Civil Aviation Authority (KCAA) as well as the specification contained in ANNEX 1 of the ICAO convention on personnel and licensing.

He is ready to undergo the field experience. Subjects covered are; *Meteorology, Navigation, Aircraft General Knowledge, Flight performance and planning, Radio telephony, Operational procedures, Human performance, Air law and Principles of Flight.*

Therefore, I believe that if given an opportunity he will not only be an asset to any organization but also very efficient. I hereby recommend him for any working environment.

Thanking you in advance.

Yours faithfully,

CHIEF GROUND INSTRUCTOR
